MaxiMiseR has been funded with the contribution of the LIFE financial instrument of the European Community and the MAVA Foundation. More information about the project can be found at www.maximiser.eu
Long-term Strategies for 1.5°C

Imke Lübbecke
Project Director, MaxiMiseR
Head of Unit, Climate & Energy
WWF European Policy Office
THE MAXIMISER DEFINITION OF A GOOD LTS

A low-emission development strategy is a country's plan for cutting its greenhouse gas emissions while securing the well-being and prosperity of its citizens. The Paris Agreement aims to keep the global temperature rise this century well below 2 degrees and drive efforts to limit the temperature increase even further to 1.5 degrees Celsius above pre-industrial levels. The strategy should set clear goals to at least 2050 and explain how they will be achieved. It should be based on the best scientific understanding and on a transparent process involving stakeholder participation.
Piecing a long-term strategy together

- Ambition
- Actionable
- Integration
- Process Transparency
- Scope
- Public Transparency
- Analytical Basis
- Monitoring
- Stakeholder Participation
- Review
WHICH EU MEMBER STATES ARE RACING TO THE TOP?

Results from the MaxiMiseR project by WWF European Policy on EU Member States’ 2050 emissions reduction strategy
